

Anderson Custom Rods

ABOUT ACR

Two-weight or two-handed, **Anderson Custom Rods** builds all types of high quality fly rods. Specializing in rods built on Sage blanks, **Anderson Custom Rods** has been crafting what many consider the finest custom rods available—since 1980. I also put the same attention to detail into rods made on my own **ACR** blanks, the smooth casting **EPS** and the fast action **LS**.

Why is an **Anderson** custom rod superior to all others, both commercial and custom? Because I give my rods an attention to detail that is surpassed by none. Your custom rod starts with my earnest desire to build for you not only an outstanding fishing instrument, but a showpiece of the rod maker's art.

A great rod begins with a great blank, an **ACR** or **Sage** blank. Before any work begins the blank is checked for straightness and the spine is located and marked. All **Anderson Custom Rods** are built on spine, *always!* A lifetime warranty on workmanship and materials is yours with rods built on Sage and ACR blanks. There is a flat fee of \$50 for any tip or mid-section, and \$60 for any butt section repair, plus return shipping.

I select only the best Portuguese cork for the handle grip, then shape it to fit your hand and needs. Ultra-fine, Full Wells, or our unique Saltwater Unigrip, what you want is just what you get.

Guides used on my rods are the best in the industry—either Hopkins & Holloway, Fuji, or my own custom guides from Batson. Before wrapping, the feet are carefully hand ground to a fine taper to allow the thread wraps to merge from blank to guide perfectly. This makes my ultra thin epoxy coating all the more striking.

With my original gold or silver wire trim in the thread wraps and the best selection of reel seats anywhere, an **Anderson Custom Rod** is just that—*custom!* Just the way you want it!

In addition to building high quality rods, I also handle the top makes of fly reels—Tibor, Able, Sage, Ross and Galvan. In most cases if you want it, I'm able to get it for you.

To complement your custom rod and chosen reel, may we recommend a Rio fly line. Rio is the industry leader in specialty fly lines. If Rio doesn't make it, you don't need it, and if **Anderson Custom Rods** doesn't have it in stock, we will get it for you—before your fishing trip!
